

## **Future Industry Forum Information**

The Assistant Secretary of the Army for Installations and Environment (ASAIE) has a requirement to establish long-term business relationships for the purpose of improving military family housing communities at Army installations.

The ASAIE, pending Congressional notification and the RCI program schedule, will conduct industry forums for future projects as listed below. The Army conducts forums to provide information to industry representatives regarding upcoming RCI projects at specified installations.

**Please note these projects and dates are subject to change at anytime.**
